OBJECTIVE

I am a highly motivated professional with a passion for the technology industry. Always looking to expand my own knowledge and contribute to a healthy team-based work environment, I would like to use my programming skill-set as a junior developer to produce a quality product that benefits both your company and clients.

TECHNICAL SKILLS

<u>Languages</u>	<u>Frameworks</u>	<u>IDE</u>	<u>Database</u>	<u>Source Control</u>
<ul style="list-style-type: none">• C#• SQL• HTML• CSS• Javascript(JQuery)	<ul style="list-style-type: none">• ASP.NET MVC 5• Bootstrap	<ul style="list-style-type: none">• Visual Studio• Visual Studio Code• MSSMS• Chrome Development Tools	<ul style="list-style-type: none">• SQL Server	<ul style="list-style-type: none">• GIT

TECHNICAL PROJECTS

- **Online Grocery List App** – A personal project of mine. An online shopping list application designed to effectively manage grocery lists from any web enabled device. Developed using ASP.NET MVC5 for front-end and SQL server back-end.
- **Vending Machine Software** – Created a console application interface for a vending machine service to manage user interaction and purchasing as well as log and sales reports. Developed using C# and SQL server.
- **National Park Website** – Created a National parks website designed to give users current and future information about various National Parks as well as a user survey. Developed using ASP.NET MVC5 for front-end and SQL server back-end.

EDUCATION

JANUARY 2018 – CURRENT

TECH ELEVATOR

14-week boot camp designed to streamline full stack development and programming skills in C# with special emphasis on practical application, techniques, and tools, as well as client side web programming including Javascript, JQuery, Bootstrap, Web services, XML, JSON.
